

LONDON FISCHER LLP

NEW YORK / NEW JERSEY / CALIFORNIA

London Fischer LLP is a specialty litigation firm. We concentrate our practice in construction, insurance and reinsurance coverage, professional liability, environmental, products liability and transportation.

Most of our cases are in New York, New Jersey and California. We do however have a nationwide practice and litigate cases in all 50 states.

The peer recognition of *Super Lawyers*® is a great honor which we appreciate. Our partners are often recognized as leaders in the various trial bars within our specialized practice areas. We are known as playing primary roles in the industries we represent as attorneys.

Success in litigation is measured in one way: outcomes. At the outset of every case we establish with our client the desired result, and then

strategize the litigation process to achieve that required goal. Our case methodology is to provide our client with a prompt case analysis. Based upon that evaluation, we devise a strategy for early termination or streamlined discovery for prompt trial dates.
